

# JANU PRIYA E

Software Engineer Fresher | Backend Development  
9123525517 | janupriyae@gmail.com | Chennai, India

## PROFESSIONAL SUMMARY

Computer Science fresher (graduating 2026, CGPA 8.25) with hands-on expertise in Java, Spring Boot, Spring Security, and JWT-based authentication. Delivered a production-ready secured backend with RBAC and RESTful APIs. Ranked #1 problem solver in college on GeeksForGeeks with 387 problems solved, and 118 problems on LeetCode — demonstrating strong algorithmic thinking and coding discipline.

## TECHNICAL SKILLS

|                  |                                                                     |
|------------------|---------------------------------------------------------------------|
| Language         | Java                                                                |
| Frameworks       | Spring Boot   Spring Security   Spring Data JPA                     |
| Authentication   | JWT (JSON Web Tokens)   Token Validation & Expiration               |
| Database         | MySQL   SQL Problem Solving   JDBC                                  |
| Backend APIs     | RESTful API Design   Role-Based Access Control (RBAC)               |
| Coding Practice  | GFG: 387 problems solved (College Rank #1)   LeetCode: 118 problems |
| Tools & Concepts | Git   OOP   Data Structures & Algorithms                            |

## EDUCATION

|                                                                      |                    |
|----------------------------------------------------------------------|--------------------|
| <b>B.E. – Computer Science and Engineering</b>                       | <b>2022 – 2026</b> |
| Vel Tech High Tech DR. Rangarajan DR. Sakunthala Engineering College | CGPA: 8.25 / 10.0  |
| <b>Higher Secondary (12th)</b>                                       | <b>2022</b>        |
| Nazareth Matriculation Higher Secondary School                       | 84.17%             |
| <b>Secondary (10th)</b>                                              | <b>2020</b>        |
| Nazareth Matriculation Higher Secondary School                       | 82%                |

## PROJECTS

|                                 |             |
|---------------------------------|-------------|
| <b>Job Tracking Application</b> | 2024 – 2025 |
|---------------------------------|-------------|

*Tech Stack: Java · Spring Boot · Spring Security · Spring Data JPA · JWT · MySQL · REST API*

- ▶ Built a full-stack secure job tracking platform with role-based access for applicants and admins, using Java and Spring Boot
- ▶ Implemented JWT Authentication end-to-end: token generation on login, per-request validation, and automatic expiration — zero hard-coded credentials
- ▶ Configured Spring Security filter chain with RBAC (ADMIN vs USER), returning correct HTTP 401/403 error responses on unauthorized access
- ▶ Used Spring Data JPA with MySQL for user, job listing, and application status persistence via clean entity models and repository interfaces
- ▶ Delivered a production-ready backend with end-to-end secured API-to-frontend data flow

## CODING ACHIEVEMENTS

**GeeksForGeeks**

**387 Problems Solved**

#1 Ranked Problem Solver in College

**LeetCode**

**118 Problems Solved**

Consistent practice in DSA & problem solving
